Newsy Pickings From Mono Lake

By "Charlotte."

George Griffith motored to Bishop, Monday, on a business trip.

Mrs. George Griffith is spending a few days visiting her mother at Bishop.

Mr. and Mrs. Glenn Mattly and baby girl returned to their home at Lee Vining, Tuesday, from Bakersfield, California.

Billie Brooke moved Mr. and Mrs. Emery Mattly to Bridgeport, Tuesday, where they are going to spend the summer months.

Mr. and Mrs. Jake Mattly and their son Randall, have returned home from Bakersfield, and are sporting a new car.

School was closed this week on account of the illness and death of Mr. N. H. Gregory, the teacher's father.

A large crowd of Mono Lake citizens motored to Bodie, Monday, to attend the funeral and pay the last tribute of love and respect to the memory of their departed friend,—Nathan Hall Gregory.

MR. N. H. GREGORY PASSES AWAY ON APRIL NINTH.

Mr. Gregory, who has made his home with his daughter, Miss Mildred M. Gregory, was taken sick on April 3rd from a relapse of the flu which he contracted during the winter.

Nurse Anna Boylan was called in and after an examination she advised Miss Gregory to take her father to a lower altitude.

His son, Spence Gregory was summoned from Bodie and on the sixth he was moved in his son's car to Bishop, riding sitting up, and would not permit his children to make a bed in the car for him to rest upon.

He seemed to be improving, and the news of his death on Friday was a shock to his many friends who sincerely hoped for his speedy recovery to health and strength.

Mr. Gregory died at the home of his daughter, Mrs. James E. Sherwin, at Bishop, at the age of 84 years.

Mr. Gregory will be greatly missed from our community, as he made a host of friends during his stay at Mono Lake.

The sympathy of the entire community is extended to his bereaved family in the irreparable loss they have sustained in the death of their father.

MR. and Mrs. EARL MONTROSE HAVE NARROW ESCAPE.

Last Monday, as Mr. and Mrs. Earl Montrose and a party of their friends were driving to Bodie to attend the funeral of the late Mr. N. H. Gregory, while rounding a sharp curve in the road just before reaching the summit, they came face to face with the Bridgeport-Mono Lake-Bodie mail stage, Tom Moyle, Jr., who was driving the stage, pulled out on the edge of the grade, scraping the fenders on the Montrose car. As it was up-grade, Mr. Montrose was not making fast speed, or there would doubtless have been a bad smash-up. As it was no one was hurt, but there were several badly frightened people.

NATHAN H. GREGORY MONO CO. PIONEER DIES AT BISHOP

Word was received at Bridgeport late last Saturday evening, telling of the death in Bishop of one of the old pioneers of Mono County and Washoe County, Nev.,—Nathan Hall Gregory.

Nathan Hall Gregory was born in Currituck County, North Carolina, November 19, 1841, and when he was about ten years old, his people moved to Missouri. At the age of sixteen he carried mail from St. Joseph to a town some 25 miles West. Armed with his pistols and bowie knife he weighed only ninety-five pounds.

In 1857 he drove a Government supply wagon to Salt Lake City, Utah, when the soldiers were sent in after the Mountain Meadow massacre. From there, a party of eight decided to go to California. His brother, S. W. Gregory and Dan Wheeler of Reno, were two members of this party. After reaching California, he engaged in teaming and stock-raising. He hauled the first load of freight into Reno, and was one of the three leasers of the Riverside Hotel, then known as the Lake House.

Nathan H. Gregory was married February 8, 1876 to Catherine Cook Wilson. Of this union six children survive: Miss Mildred M. Gregory, of Mono Lake and Superintendent of Schools of Mono County, Mrs. J. W. Sherwin, Mrs. B. E. Sherwin, and Mrs. A. E. Larson, of Bishop, Mrs. U. A. Arding, and Spence W. Gregory, of Bodie. He is also survived by one brother, Manloff Gregory, of Ludlow, Missouri.

N. H. Gregory moved to Aurora and later to Bodie in 1878, and established his home on a ranch a few miles from the latter town where he engaged in the stock-raising business until he retired from business a few years ago. Since the death of his wife which occurred several years ago, Mr. Gregory has made his home with his daughter, Miss Mildred M. Gregory, who kept house for him until the time of his last illness and death.

Mr. Gregory who suffered a relapse from an attack of influenza on April 3rd. On the 6th he was taken to the home of his daughter, Mrs. James E. Sherwin, at Bishop, for medical advice and care. All that could be done by loving hands of his loved ones and medical skill could not stay the passing of this old pioneer, and he slept that last great sleep April 9th. The funeral services were conducted from the undertaking parlors in Bishop, by the Rev. Harry G. Banks, pastor of the Methodist Church, and the body of the deceased was brought to Bodie, Sunday, for interment in the family burying place in the local cemetery.

The services at the graveside were conducted by A. C. E. Bridger in the presence of a large number of his friends who had gathered from far and near to pay the last tribute of respect to his memory.

The sympathy of all goes out to the bereaved family in the great loss they have sustained in the death of their beloved father.

Personal Notes and Items of Local Interest

Mr. and Mrs. James T. McAlee were visitors in Minden for a few days early this week.

Archie Pimentel was a business visitor in Reno, Wednesday and Thursday.

District Attorney Chas. L. Hayes is a business visitor this week in the Southern end of the county.

Messrs. Stewart and James I. Cain went to Bodie Wednesday to make repairs on their truck and bring it to Bridgeport.

Andy McWellion, Special Agent for the Southern Pacific Company, was a business visitor in Bridgeport several days during the early part of the week.

Thomas Moyle, Junr., was the pilot of the Bridgeport-Bodie-Mono Lake mail stage during the early part of the week in the absence of contractor, James T. McAlee.

The dance given in Community Hall last Saturday night by the local orchestra was well attended and an enjoyable time had by all present.

Mr. and Mrs. Sam Cohen returned Wednesday to Smith Valley. In their absence from the Bridgeport Hotel, Mrs. Thomas Moyle, Jr. and her cousin, Miss Taxiera, are taking care of the same.

Quite a number of our Bridgeport people have joined the Rainbow Club of Bishop. Membership cards and buttons may be obtained at either Store, or be had from Mrs. S. Cohen direct. Every one should join. Your dollar plants a thousand trout.

Mrs. M. J. Larson, who for over thirty years was a resident of Mono County, but now resident of Bishop accompanied by her daughter, Mrs. W. E. Jones, and several friends, were visitors in Bridgeport week and guests at the Hotel De Chambeau.

F. G. Somner, Division Engineer of District 9, of the State Highway Commission, accompanied by Mrs. Somner, was a business visitor in Bridgeport this week. Mr. Somner was looking over the highway in this part of the County to ascertain the amount of work necessary to put same in good condition before the heavy tourist travel begins, and to arrange for the work to be completed as soon as possible. Mr. Somner informed us that he expects to have the highway via Deadman's summit open for travel within the next few days. Mr. and Mrs. Somner were held in Bridgeport longer than they expected owing to the breakage of a part on their car and the wait entailed while awaiting the arrival of a new part.

A MESSAGE OF THANKS

Putting Farm Work Horses in Condition

© Underwood & Underwood. Harvesting small grain in the great Northwest.

Progress in farm field work in the
coming months depends largely on the
condition of the work horses. Soft
work from the winter's rest, farm work
horses require conditioning just as an
athlete requires training for his tests.

Every farmer knows that two or
three weeks spent in a gradual tough-
ening and conditioning of a horse for
the heavy work is more than made up
before the season of heavy field work
is over. Not only does this condition-
ing include breaking them in to the
long hours of hard pull that they
must undergo, but applies as well to
breaking them in to a working ration.

It is poor practice to allow a horse
to pasture on much new lush grass
if he is to go on a strenuous work
schedule. A little grass is good for
him, helps to condition him, but he
must have oats, bran or old corn, or
still better, a combination of the three
and good sound hay. These are the
best possible rations in the spring and
early summer. The horse that is fed
a major ration of grass soon gets soft,
sweats profusely, lags and quickly
plays out. Oats, bran, corn and hay
will give him stamina and leave him

in the best condition at the end of
the day.

By treating old Dobbin fairly, get-
ting him ready for spring work with
daily exercise, keeping him thoroughly
groomed, especially while shedding,
and a work ration instead of his
winter feed will pay big dividends in
a short time.

If the horse takes a long time to
shed his coat, this can be facilitated
by thorough, frequent grooming and
if this does not do the work, a clipping
all over will get him through the shed-
ding period quickly. After the horse
has started to work in the field, it is
advisable to bathe the shoulders and
neck two or three times daily with
cold, soft, salty water or with white
oak bark tea which toughens and
cleanses the chafed parts.

A prominent veterinarian states
that excessive sweating is remedied
by clipping the horse. Excessive
sweating weakens the animal and it is
doubtless quite advisable to clip him
to relieve this condition. It is also
true that this practice enables the
horse to be thoroughly groomed in
much less time than when it retains
its long winter coat of shaggy hair.

"BLUE AND GOLD"

Edited by Students of Bridgeport High School.

High School

In the final test at the end of the month in algebra over simultaneous equations, Claire Keller, received 90%, and Bernice Brandon 80%.

Russell Cain was absent from school part of Wednesday and Thursday on account of sickness.

In the Eighth grade test in arithmetic this week over fractions percentage and insurance, all four members of the class received 100 per cent.

In the Eighth grade language test over parts of speech and kinds of sentences the grades were: Harford Dolan, 90%; Russell Cain 76%; Dorothy Brandon, 76%, and Cecil De Chambeau, 74%.

The Eighth grade have decided to write a grammar.

The Eighth grade have decided to write a grammar. The following are some of the unique things which will be found in their text, —when published:

- 1.—A direct object is one of the parts of speech.
- 2.—The adjective, "good" will be compared good, gooder, goodest.
- 3.—In the sentence, "He will help you," help will be an adverb.
- 4.—Instead of writing the names of the eight parts of speech, the pupils will write eight speeches.

The typing class are doing considerable work on dictation of business letters while the cast are having rehearsals.

Mrs. A. S. Bryant and Mrs. Robt. Sawyer have kindly consented to serve one of their delicious suppers after the play Saturday night.

The business men and women of the town responded well to the call for advertising on the programs. Those giving their support were: Evans & Cain, Mrs. James T. McAlee, Mrs. Pimentel, Mr. Laughlin, Mr. Logan and Mr. Bridger.

The teachers and pupils are very grateful to Mr. A. S. Bryant for the use of Sierra Hall for rehearsals and for the play next Saturday night.

An orchestra, with Mrs. Helen Day at the piano, Lloyd Day, banjo Bert Brandon, cornet, West Smith, saxophone, and Merrick Bryant, drums, will furnish music during the play and for the dance afterwards. This is the fifth time this orchestra has helped the school during the present term. Its services can be better appreciated when it is known that there is no instructor or instruments for the

teaching of music in the school. They have given freely of their time and talent. We thank you!

ENGLISH — Chester Barnes
"The King of Hunting Birds."

There are many different kinds of eagles. There are the Bald Eagles, the Sea Eagles, The Mountain Eagles and the Lammergein Eagles. These eagles have so much strength that they can carry a lamb and even kill a deer.

They build their nest on very high places. They like high slopes so that their nests may be safe. They always have plenty of food.

When an eagle wants mountain food he kills a deer or rabbit, but when he wants fish it is much harder to get. Once a sea eagle was seen to drop from the air swiftly into the water and plunge his talons into a fine salmon. The salmon struggled and swam along and pulled the eagle under the water. The eagle could not release its hold and the salmon would not cease struggling, and so keen were both on their battle that a man sneaked up and got both fish and bird. One time an eagle got a tortoise. The only way he could break it's shell was to take it up in the air and drop it on a rock. This he did.

Their weapons are, their beak, claws and wings. When an eagle starts after a sheep there is not much hope for him unless the shepherd is on guard.

ELEMENTARY NOTES

Leland Day entered school Monday, for the remainder of the term. This makes an enrollment of 26.

Now that the pleasant Spring days have come we find that quite a few of the children are afflicted with Spring fever, and it will be worse when the fishing season opens. Don't know we can blame them much, at that.

We are practising every other day for the closing entertainment.

Jack Murphey is sick in bed today.

In a spelling review in the first and second grades this week, the following grades were made: Harley Sawyer, 100%; Harry White, 100%; Annie May Wedertz 92%; Harford James, 96%; James Perri, 88%; Helen August, 92%; John Evans, 100%; Leland Day, 96%; David Archer, 96%.

The Third grade is still drilling on the multiplication tables.

VOTERS REGISTER

New and complete registration of voters of Mono County commenced January 1st, 1926.

In order to be qualified to vote at the Primary and General Elections to be held in the year 1926, one MUST register after January 1st, 1926.

Section 1094 of the Political Code provides that, "such registration shall be in progress at all times except during 30 days immediately preceding ANY election, when it shall cease as to electors residing in the territory within which such election is to be held; and transfers of registration for such election may be made from one precinct to another precinct in the same county or city and county at any time when such registration shall be in progress in the precinct to which the elector seeks to transfer."

If you move from one precinct to another after you have registered, you MUST re-register within

30 days or lose your right to vote.

If you would preserve that right observe that on

July 31, 1926

Registration and Transfers close for August Primary Election to be held August 31st, 1926.

October 2, 1926

Registration and Transfers close for General Election to be held November 2nd, 1926.

Four political parties,—Republican, Democratic, Prohibition and Socialist,—are eligible to participate in the Primary and General Elections in 1926, and certain State and Legislative candidates are to be voted for by party ballots and, in order for you to vote a party ballot it is necessary that you state your party affiliation at least 30 days before any State Primary Election, otherwise you will be given only a non-partisan ballot at the polls, which does not contain the names of any party candidates and will preclude you from voting for any such candidates. Give your party affiliation when you register, and thus retain a privilege to which you are entitled.

Opportunity Waits for the Man Standing on a Sound Financial Basis

It is an easy thing for a man to grasp opportunity when he has a solid financial foundation back of him, and it is an easy thing to acquire that foundation if you have acquired the habit of saving.

It isn't so much what you put in—but how often you put in. A portion of your pay check every month or week, and soon it will be as much a matter of course as paying any of your bills. And instead of receipts—you will have deposits and a comfortable balance ready to invest when the right investment comes along.

Your Sheep Deserve Attention

The farm flock of sheep give two crops each year—lambs and wool.

As time goes on, progressive farmers are placing a higher valuation on the variety of sheep they raise and the care they are given. It is generally realized that a sheep raiser secures two crops per year—the lambs and the wool. All indications point to a well sustained price for lamb and mutton due to the fact that consumption has at last overtaken production and prices being paid for wool, mutton and lambs are, even now, most inviting.

Compared with other live stock, sheep raising provides a profitable source of cash income. Early lambs can be made ready for market by June and when the wool is harvested and sold in June and July, this revenue is received at a season when most needed by the average farmer. There are many instances where farm flocks of sheep have kept farmers out of debt. In one instance, 50 ewes produced 65 lambs which when marketed averaged 66 pounds at 15c per pound or a total of \$648.37. The wool clipped from the 50 ewes averaged a trifling

over seven pounds per head and brought well over a \$100.00 or a total of almost \$800.00 from the flock of only 50 ewes.

Such a harvest, however, is not possible without a return by the owner. He must lay the foundation by securing a desirable ram and must have good basic value in the breed of sheep he is raising.

While there are more than 40,000,000 sheep in the United States, only 463,504 of these are pure bred. Annually the number of pure bred sheep increase in proportion to the total number of sheep, which is a favorable indication for a continuance of quality for years to come. The sheep owner realizes that only on quality may he build a permanently profitable business in sheep raising.

A close study of breeds most suitable to existing conditions and most advanced methods of feeding and care, always carries with it a large dividend in results obtained. Your sheep deserve good attention.

THE STORY OF THE POWER COMPANIES

SINCE 1913

The cost of National Government has increased 244 per cent
The average cost of Commodities has gone up 65%.

ELECTRICITY, of all important commodities, has alone
decreased in price.

WHY?

The answer is the Story of the Power Companies.

Sixteen To One!

That was the Slogan of the Free Silver Campaign of 1896.

It meant a good deal then; not much now.

Sixteen to one means a great deal, however, as contrasting the power load of this organization in 1925 with that of 1913, the first year of its operation, when it began to serve a territory as large as Ohio in which, before its coming there was no electric light service outside the limits of a dozen small cities and towns, where little plants, costly to operate, provided lighting.

A line one fourth of an inch long represents the beginning; it takes a four inch line to show, on the same scale, the power demand supplied last year.

Picture a wide strip of territory 537 miles long, from Mono County to the Southeastern corner of California; in which mines, chemical and cement plants, irrigation pumps, cotton gins and a score of industries are operated by energy brought by the main trunk transmission lines of this organization: in which cities, towns, communities and outlying houses and ranches are lighted, and household tasks made easy by electricity, and part of the meaning of this sixteen-fold growth of the load since 1913 will be grasped.

It took vision, faith and daring, alike of builders and investors, to bring this about. It was not there when the line was built; it is there now, in large part because the line was built.
